Potential for wind power generation

1010. SHRI MAHENDRA PRASAD: SHRI MURLIDHAR CHAN DRAKANT BHANDARE:

Will the Minister Of ENERGY be pleased to state

(a) whether any assessment has been made about the potential for generation of wind power in the country per year; if so what are the details .thereof;

(b) what progress has been made so' far - in tapping this power potential; and

(c) what is the plan for fully utilising the potential?

THE MINISTER OF ENERGY (SHRI VASANT SATHE); (a) According to a preliminary estimate, there is potential for generation of 20,000 MW of wind power in the country, which could result in an annual energy generation of 40,000 milIion units. To obtain more accurate and reliable estimation of the total potential, wind survey projects have been initiated in different parts of the country.

(b) Five demonstration wind farm projects of planned aggregate capacity 5.5 MW have-been taken up at Mandvi and Okha in Gujarat; Tuticorih in Tamil Nadu; Puiri in Orissa; and Deogarh in Maharashtra Wind electric generators of 3.63 MW capacity have already been commissioned, and about 65 lakh units of electricity have been fed to the State grid,

(0 According to the peper prepay by the Depa,rtment of Non-Conventional energy Sources entitled "Energy '2001'

5000 MW for wind power generation could be realized by the end of the contury provided sufficient funds are* allocated tor this purpose.
